

Project Manager for Resource Efficiency Projects (f/m/x)

CES clean energy solutions (CES) is a leading provider of premium consulting and engineering services in the field of sustainability, resource efficiency and renewable energy for private & public institutions, international financial institutions and donor agencies in both developing and transition countries with its head office in Vienna and branches in Ukraine and Bulgaria.

For the further expansion of our international activities, CES is looking to recruit a Project Manager for Resource Efficiency Projects for our Vienna head office, explicitly focusing on international projects in Eastern Europe and Central Asia.

Job Overview

- Prepare, manage and implement projects in the field of resource efficiency
- Support in market analyses, identification and development of new project opportunities
- Technical and economic evaluation of climate protection projects
- Development of reports and studies for international financial institutions and organizations
- Elaboration of technology-specific topics along operational value chains

- Support in the establishment and further development of tools for the technical or economic assessment of investment projects with regard to sustainability

Qualification

- You have a relevant university degree (e.g. MSc. in engineering and/or MBA)
- You have earned experience of working in the field of sustainability, circular economy or climate risk assessments
- You have experience in international projects in the energy and/or resource efficiency sector
- You have excellent computer/software skills
- You have proven management skills and have the ability to lead in a multicultural environment
- You are willing to travel and are interested in learning about other countries and cultures
- You are fluent in English, and most preferably you have a good command of another language as well (preferably Ukrainian, Russian, or Croatian language)

Our offer

- Attractive permanent position in a renowned company with a promising future
- Team spirit – excellent workplace atmosphere in a dynamic team
- Modern and professional work environment with exciting projects and an international project setting
- Opportunities for professional and personal development, with flexible integration into projects
- Support for continuous education and training
- Flexible working hours and an independent area of responsibility
- Convenient public transport accessibility
- Job ticket – annual pass for Wiener Linien
- Modern office in a central location (right next to Schönbrunn) with excellent transport connections
- Monthly gross salary, depending on qualifications and experience, starting at a minimum of EUR 3,900, with willingness to offer higher compensation.

Contact

Please submit your application, including Job ID, a photo, your salary expectations, as well as your CV, references and proof of achievements online.
